I should never delegate anything. So sorry you had to make the changes more than once.

Thank you
Francesca

Francesca:

My recommendation re a signatory(ies) to the letter is that you follow normal procedures, i.e., as you have handled previous allegation responses.

I have provided comments on the report and letter, most of which are minor and have been submitted previously. I offer them in case they were not considered when developing these latest drafts.

Thanks.

Kevin

Subject: Allegation #124

Hi everyone – Here is what I hope are the final versions of the report and the letter to the Sierra Club. I will put the letter on letterhead and make it into a pdf before sending. The report can be FOIA'd but we do not routinely send that out so it goes into our files.

QUESTION – Is this letter from me, from The Scientific Integrity Review Committee (all of you), both of us or from all of us and the Committee?

I think it should be from me and the Scientific Integrity Review Committee. Also – anyone else who should get copied on this?

Please get me any comments or edits.

Thank you

Francesca
